Built on a tradition of service, Gerrie is one of the largest independent electrical distributors in Canada offering its customers the best electrical, automation, lighting, clean energy and IP network products in North America.

This comprehensive product offering is supported by an extraordinary service commitment from over 300 employees in key Ontario locations serving customers ranging from industrial end users, OEM machine builders, systems integrators, industrial, commercial and IP network contractors, to retail customers, utilities, local municipalities and institutions.

Gerrie assures you instant access to the product mix you need, when you need it.

Our facilities are fully automated with web based customer accessibility, computerized order entry, picking, bar coding and an inventory control system linking all warehouse locations. With electronic data interchange for both customers and suppliers and web access, Gerrie can now assure you instant access to the product mix you need, when you need it.

Our business continues to be built on service and dedication to customer success.

Our facilities are fully automated with web based customer accessibility, computerized order entry, picking, bar coding and an inventory control system linking all warehouse locations. With electronic data interchange for both customers and suppliers and web access, Gerrie can
